530-0101 2.5" hard disk. in the first time it's works fine and afterwards, it hangs up the disk controller. it was working fine on my previous windows vista 32 bit computer, what is wrong with my new windows 7 64 bit computer? A: You have Windows 7 installed with the 64-bit version of Windows Media Player (WMP) by default. This means that some of the drivers for the video capture cards have to be 64-bit. Thus, you need to search for the exact name of the device and the appropriate 64-bit driver. This process can be painful at times (especially in the heat of battle), but it is all for a reason. With that, I recommend Windows Vista as your OS. I've had great luck with Windows 7 for gaming and Windows Vista is still my favorite for other uses, but this is just a suggestion. You can easily switch back to Windows 7, if you prefer, or find a Windows 7/Vista dual boot. Westland man creates cardiology catheter that could save \$100,000 A Westland man has created a new device that could potentially save more than \$100,000 in the operating room. Philip Chew, chief of the cardiology catheterization program at St. Joseph Mercy

---

Medical Center, said the new device is a catheter that's more comfortable for patients, and could potentially save money in the long term by reducing hospital stays. The high-tech catheter makes a wire loop that attaches to a patient's heart. The procedure uses a large wire guide and a smaller wire loop to get the catheter into the patient's heart. In some cases, doctors will use two wires. "It's the most commonly used catheter in the United States. It's used in most catheterizations," Chew said. "The value of the catheter is that it gives us a high rate of success." Chew created the catheter, a modified version of an existing product, in his spare time, without any financial incentives. A major concern with the catheter is the use of the wire loops, because they can cut into the blood vessels that run through the heart. "We want to make it as comfortable as possible," Chew said. "It's a very durable device, but it needs to
